..... These specials end Friday 24th
September, or while stocks last!

* This mac requires System 7.0 and cannot run System 6.0
† This mac requires System 7.1 and cannot run System 6.0 or 7.0

Apple StyleWriter II

The Apple StyleWriter II makes laser-quality printing more affordable than ever for anyone who uses a Macintosh personal computer. Ideal for business or home use, the StyleWriter II fits comfortably in even the smallest work spaces, and can be put to work immediately. Installation takes only one click of your mouse.

This sleek, ink jet printer offers a convenient, quiet, personal printing alternative to a networked Apple LaserWriter printer. The StyleWriter II produces laser-quality results at 360-dots-per-inch (dpi) resolution, 40 percent better resolution than standard 300-dpi printers. That means sharper text and better graphics output, making it the affordable option to a laser printer.

The StyleWriter II gives you the flexibility of printing text in a wide range of styles in any size, from tiny footnotes to bold headlines. It comes with 39 TrueType fonts including Times, Helvetica,

Palatino, ITC Avant Garde Gothic, and Symbol — three times as many fonts as most competitive products in its class.

And to make the printing process as effortless as possible, the StyleWriter II has a multi-purpose tray that automatically feeds up to 15 envelopes or 100 sheets of paper. To handle diverse printing requirements, this personal desktop printer accommodates letterheads, labels, envelopes, and even transparencies for overhead projection, all from a single tray.

To enhance text and images, the StyleWriter II has Apple's GrayShare technology to give you greyscale printing comparable to the quality of more expensive Apple LaserWriter printers. For added versatility, Apple's GrayShare software also lets you share your printer with others on a network and achieve maximum Macintosh compatibility.

Apple StyleWriter II Features

Print quality

- 360 dpi for laser-quality printing
- Greyscale printing for sharp graphics
- 39 scalable TrueType fonts for printing in any size and a wide range of styles

Convenience

- Small, sleek design fits on any desktop
- Multipurpose tray for effort less paper feeding
- Ideal for home use
- Fast, draft-mode printing

Ease of use

- Easy, one-click installation
- Plug-and-play simplicity with any Macintosh computer
- 100-sheet multipurpose tray with automatic envelope feeder
- Three different print modes for versatility and productivity

Technical Specifications

Marking engine

- Thermal ink jet

Memory

- 128K (62K used for buffer)

Speed

- Best mode: up to one page per minute
- Normal and draft: up to two pages per minute (actual speed varies depending on images printed and computer used)

Print quality

- 360 dpi in best and normal modes
- 180 dpi in draft mode
- Greyscale printing with GrayShare software

Fonts

- See below for the fonts included with the StyleWriter II
- TrueType font support
- Adobe PostScript fonts when used with Adobe Type Manager software

Interface

- High-speed serial (RS-422)

Ink cartridge

- User-replaceable
- Up to 500 pages at 5% page coverage

Paper feed

- Automatic up to 100 sheets or 15 envelopes

Print materials

- Apple recommends 75 g/m² (20-lb.) cotton bond; also accepts 60 g/m² (16-lb.) to 90 g/m² (24-lb) paper
- Paper: A4, U.S. letter, U.S. legal
- Most letterhead and coloured stock, labels, envelopes, and transparencies
- Envelopes: #10 business, monarch, and other sizes
- Apple recommends 3M brand CG3480 transparency film

Paper capacity

- Multipurpose tray: up to 100 sheets of paper or 15 envelopes

Printable surface

- Maximum printable line: 203.2 mm (8.0 in.)
- Minimum margins: 6.35 mm (0.25 in.)

Size and weight

- Height: 18 cm (7 in.)
- Width: 34.5 cm (13.6 in.)
- Depth with output tray closed: 20 cm (7.9 in.)
- Weight: 3 kg (6.6 lb.)

Power requirements

- Australia: 220 to 240 V AC, 48 to 62 Hz

Power consumption

- 18 W maximum

System requirements

- Any Apple Macintosh personal computer with at least 1 Mb of RAM and a hard disk drive
- System software version 6.0.7 or later
- Recommended: 4 or more Mb of RAM with System 7 or later

[illegible]

TrueType fonts included with the Apple StyleWriter II
